Dear Ms. Hesse,

In response to your request for public comment on the proposed settlement in the case of United States v. Microsoft Corporation, I ask you to settle the case as soon as possible with zero restrictions on Microsoft. This company is one of America's shining lights and the government has/had no cause to interfere with its progress. If competitors cannot compete with Microsoft's innovations then they should fall by the wayside and winners like Microsoft should be allowed to bloom.
